

The Swiss-based family owned company Bühler is a global, industrial solution provider for processing foods and for manufacturing advanced materials, contributing to food security and high energy efficiency.

Around 65% of the worldwide harvested grain is processed on Bühler mills, around 50% of all car tail lamps or head lamps are getting metallized on Bühler machines. Every day, billions of people come into contact with Bühler technologies to cover their basic needs for foods, mobility, or communication.

For our subsidiary Bühler Praha s.r.o. we are looking for:

Design Engineer

Duties

- Design of plant sections or complete plants in the area of grain processing as well as creation of machine layout drawings
- Support of the project manager in international projects
- Provide data and specifications relating to the building parameters such as openings and loads based on the machine layout
- Provide technical documentation for control system construction
- Carry out detail engineering design and establish specifications for conveyors and piping as well as for ancillary components and steelworks
- Production of procurement lists for internal and external materials sourcing
- In a training program matched to your existing knowledge, we will induct you into your duties as a Design Engineer. Part of this training will take place in our headquarters in Switzerland (1-3 months)

Qualifications

- Basic engineering education in mechanical engineering or plant design & construction with a mechanical engineering degree from a higher institute of education or a university of applied science
- Experience in 2D/3D plant engineering, knowledge of Inventor, Bentley AutoPlant or AutoCAD would be an asset
- You appreciate cross-disciplinary planning and coordination tasks
- Good knowledge of English or German

What we offer

- International, successful company with sustainable prospect for the future
- Young, dynamic, intercultural and motivated team
- Professional environment with open communication culture
- Exciting development and training opportunities
- International travel opportunity

Other bonuses and benefits

- 5 weeks of holidays
- Flexible working hours
- Laptop and mobile phone for private use
- Meal vouchers, Cafeteria benefit program, Multisport card
- Annual bonus (13. salary)

In case you do identify yourself in this profile and want to work in a successful team, we are looking forward to your application. **The next step is yours!**
