WHO WE ARE

AMCON Europe s.r.o. is a progressively developing subsidiary of a Japanese company, AMCON INC. based in Yokohama, Japan. We are a manufacturer of wastewater treatment equipment and especially focusing on sludge management for municipal wastewater treatment plants and industrial factories. With its unique patented product, called "VOLUTE", AMCON has solved over 3000s of water pollution problems in more than 70 countries all over the world. We chose Prague, Czech Republic, as our European headquarters to spread our innovative technology to the fullest degree in Europe, Africa and the middle east. And we are looking for a motivated person who can join our team and work together with us for the protection of the precious environment in the worldwide scale.

GENERAL JOB DESCRIPTION

Design Engineering

★ ★ Mechanical Engineering

- Read, interpret and design technical drawings applying knowledge of mechanical engineering/Material science principles.
 - Machine assembly. Sub-assembly, component drawings (2D and 3D)
 - Machine component drawings (Tank, Agitator, Frame stainless steel metal works etc...)
 - Piping design
- Discuss with suppliers, engineers and analyze the feasibility of client design proposals, specifications.
- Modify products to ensure conformity with engineering design and performance specification

REQUIREMENTS

- Bachelor degree or higher, with focus on mechanical engineering. Students may be considered, depending on experience and technical skills.
- Experience in designing of industrial equipment for minimum of 1 year of either professional or educational experience.
- Advanced level of CAD 2D AUTOCAD and 3D in Solidworks.
- Basic knowledge of electrical works to support the mechanical engineering would be preferred.
- Upper intermediate (B2) to Advance level (C1) of spoken and written English and advance or native speaker level of Czech language.
- Willingness to work a flexible schedule.
- Self-motivated, punctual, logical thinking, skills to "think outside of the box", problem-solving skills, creativity, quality oriented, leadership

OFFER

- Motivating salary
- Annual bonus based on company financial result
- 4 weeks of paid holidays plus additional holiday added for each year served with a limit up to 5 weeks
- Free of charge shuttle bus from Zličín metro station to the office (only 10 min)
- Modern new office, warehouse is adjacent to the office
- Laptop with CAD Modeling SW
- Free English lessons 90min one time/week
- Friendly and international English speaking professional work environment
- Other benefits such as sick-days, flex time, meal vouchers, Quarterly teambuilding events (paintball, carts, karaoke, water skiing, etc.)

We emphasize more on motivation and communication skills rather than the experiences.

**If you think you would fit, why not apply for us?
